

**Amendment to the Drawings**

Corrected Drawings for Figures 1-12 are attached hereto pursuant to the Notice of Allowability mailed on July 26, 2006, in connection with the above-identified patent application. Attached Figures 1-12 include the changes required by the Notice of Draftsperson's Patent Drawing Review.

In addition, attached Figures 1-12 differ from originally filed Figures 1-12 to merely correct formal matters as follows:

- In each Figure 1-12, "Fig." is changed to all capital letters as "FIG.;"
- In each Figure "5a," "6a," "7a," and "8a," the "a" is changed to capital "A";
- In each Figure "5b," "6b," "7b," and "8b," the "b" is changed to capital "B";
- In Figure 9, reference character 56' is deleted because it does not appear in the specification and is redundant with reference character 58'; and
- Reference characters 22', 50', 52', 54', 58', and 60' are changed to reference characters 122, 150, 152, 154, 158, and 160, respectively, for clarity purposes (note that the specification is amended appropriately as shown above in the Specification Amendment section and described in the Remarks section below).

**Remarks**

With this Amendment, the specification and Figures 1-12 are amended to merely correct formal matters.

It is respectfully submitted that these amendments are fully supported by the application as originally filed and do not present new matter.

The specification is amended to change reference characters 22', 52', 58', and 60' to reference characters 122, 152, 158, and 160, respectively, for clarity purposes.

In addition, the specification is amended to reference the chamber 150 and periphery 154. Chamber 150 and periphery 154 were identified as 50' and 54' in Figure 9 as originally filed, but were not mentioned in the specification as originally filed. Please note that chamber 150 and periphery 154 are similar to chamber 50 and periphery 54, respectively, for the toy shown in Figures 1-8B and 10-12 and described at, e.g., page 6, lines 17-29 of the application as originally filed.

Please note that Figure 9 is amended appropriately as discussed above in the Amendment to Drawings section.

Applicant respectfully requests that the proposed amendments be entered.

The Examiner is invited to contact the Applicant's undersigned representative if the Examiner has any questions at (651) 275-9831.

Respectfully Submitted,

By:
